Feelings

People have lots of different feelings. Some feelings are happy, sad, or mad.
I feel suprise...

Why do I feel surprised when people shout, "SURPRISE!" at a party? Maybe because the horns are loud or I didn't know that people were going to be there.
I feel silly...

Why do I feel silly when I see a clown? Maybe because it is the big clothes the clown wears or because he let go of the balloon.
I feel sick...

Why do I feel sick when I go to the amusement park? Maybe because I ate too much or because I went on the roller coaster.
Why do I feel tired? I may feel tired after I eat dinner, take a bath, and put on my pajamas.

Why do I feel tired? I might feel tired when I go to school or may be the bus ride home.
I feel tired...

Why do I feel tired when I go to the beach? Maybe because I played with my sand toys or because I went swimming in the ocean.
Sometimes I feel afraid...

Why do I feel afraid? Sometimes when I go to bed at night I may be afraid because my room is dark or I may think there are monsters under my bed.
Why do I feel afraid? I am afraid when I get lost or separated from my parents.

Why do I feel afraid? I feel afraid when I see a dog. The dog might hurt me or may bite me.
Why do I feel silly? I may feel silly when I hang out with my friends. My friends might say a joke or may make a funny face.

Why do I feel silly? I feel silly may be when I am watching television or may be when I am dancing.
Why do I feel tired? I may feel tired after I eat dinner, take a bath, and put on my pajamas.

Why do I feel tired? I might feel tired when I go to school or may be the bus ride home.
Why do I feel sick? I may feel sick when the weather changes. Some days are cold and some days are hot.
