

Playing a Game

Playing games are fun. There are all sorts of games. Sometimes you play board games when you move a token around a board. Sometimes you play chase games. Games with balls are fun. A lot of kids like to play video games.

When I play a game with my friends, it's important to know the rules before we start. When we are ready, we should decide who will go first. Then take turns.

When you play a game with someone or are on a team, someone will be the winner of the game. I will not always win at a game. It's O.K.
